Alice's life was rich with experience. She grew up in the depression years and came out a survivor. She was well known in the art community as a renowned artist in all fields and volunteered many hours at the Thunder Bay Art Gallery. She was an experimental artist and a life-long learner, who sought out new adventures, she enjoyed playing bridge and was a member of the Thunder Bay Duplicate Club. She loved the simple things in life, family, friends and home life. Alice and Frank married on September 27th, 1952 and built a life together with five wonderful children, trips and never ending plans. Alice lived life to the fullest. Alice and Frank spent many happy years camping at Loon Lake with their family and friends. She was a very talented lady in many fields and shared her gifts with all of us. She went back to University after she raised her children and received her Bachelor of Arts degree with honours in 1984 and a second degree in print making in 1999. Alice received many awards for her art, she was a woman before her time and admired for her many strengths and talents. Alicejean will be missed by all and her legacy and influence will live on. May she be at peace now and forever more with the love we will always have for her in our hearts.
